(at 500 m distance from the
railway station and city centre)

WHY BRUGES MASTERS?

INTERNATIONAL TOURNAMENT

With around 300 participants from 20 countries, this tournament is a challenge for ambitious chess players and offers the chance to meet new opponents. The open tournament gathers the masters and ambitious players and those who like things a little calmer can participate in the U1800 or seniors tournament. Analysing and fraternising after the game can be done in the bar area. Of each series games can be watched live on the internet. In short, everything you would expect from a major tournament.

COSY BAR

All work and no play makes Jack a dull boy. To relax or have a hearty chat, you can always visit our cosy bar. Not only can you discover special regional beers and other thirst quenchers, but you can also enjoy a wide range of snacks. And of course the fine company of an international chess audience. Join the club!

FAIRY-TALE CITY

The new impressive playing hall is located right next to the beating heart of downtown Bruges. An ideal base from which to explore the historic city. Moreover, on Monday evening we offer a free guided city tour. Not to be missed!
